

Factory Pattern and Closure

- sb say pehlay createCounter(start) ka function bnaya, jiss ko factory function khein gay.
- phir iss function k andar count ka variable bana kr start parameter say initialize kawa dein gay.
- phir increment ka function bana dein gay and phir decrement ka jo k inner function hongay.
- phir return kr dein gay dono functions ko, jo function call hoga, createCounter() function mei jo word bana tha us ko access or modify kray ga.

createCounter(5)
